**AGING & DISABILITY RESOURCE CENTER**

The Statewide Independent Living Council is administering the Aging & Disability Resource Center grant through, and in partnership with, regional Centers for Independent Living. The purpose of this grant is to provide citizen-centered "one-stop shopping" entry to long term support services for seniors and people with disabilities. The Resource centers within the Center for Independent Living will offer information and referral services, assistance in gaining access to long term support services for private pay consumers, and comprehensive assessments for those seeking publicly funded services.
